With the support of the Erasmus+ programme of the European Union

www.askfood.eu

The Alliance for Skills and Knowledge to Widen Food Sector-related Open Innovation, Optimization and Development (ASKFOOD, www.askfood.eu), aims at setting, designing and developing tools and training actions and to leverage and boost innovation by strengthening the collaboration and cooperation among all the actors and stakeholders of the food related sectors.

Food security and availability of food for all is essential to humanity. The current status and the foreseen future scenarios highlight the need to develop new interactions with non-food or food-related sectors to develop a long-term and impact-driven strategy. In recent times the collaboration of food industry, education and research with other sectors like agriculture, nutrition, has grown but other sectors are required to develop an integrative approach to feed a growing population. In this webinar the strategies and actions of food and food-related Knowledge Innovation Communities to boost the sustainability and innovation of food systems will be presented.
