Project N.588375-EPP-1-2017-1-IT-EPPKA2-KA
With the support of the Erasmus+ programme of the European Union

www.askfood.eu

The Alliance for Skills and Knowledge to Widen Food Sector-related Open Innovation, Optimization and Development (ASKFOOD, www.askfood.eu), aims at setting, designing and developing tools and training actions and to leverage and boost innovation by strengthening the collaboration and cooperation among all the actors and stakeholders of the food related sectors.

Covid 19 highlighted the limits of knowledge and policies in reaching high levels of safety within the food system and food safety sustainability in a food company or organization. New actions are required to raise individual awareness, shared values and behavioral changes at all levels with main reference to food production. Will the availability of new and innovative tools and equipment along with a proper education and training of all operators be sufficient to enhance a food safety culture?

PROGRAMME

09:45: OPENING OF THE VIRTUAL ROOM

10:00: WELCOME AND INTRODUCTION

Paola Pittia, University of Teramo (IT), ASKFOOD project coordinator
Julian Drausinger, LVA (AT)

10:10: TALKS

COVID-19 AND FOOD SAFETY: THE IMPORTANCE OF RESEARCH IN FACING TOUGH CHALLENGES FOR THE FOOD INDUSTRY OF THE FUTURE
